Foreword

The purpose of this report is to give to the citizens of Rutland an analysis of expenditures made by your City Government during the year 1940, with a review of activities and services rendered.

The problems that confront us are many and varied, but through the untiring efforts of all City employees, much has been accomplished.

The School Department takes pride in the advance made during the last decade in helping children of the City to build strong bodies and to develop health habits which will be of use as long as they live. The asset of good health and physical fitness surpasses any other that we may possess.

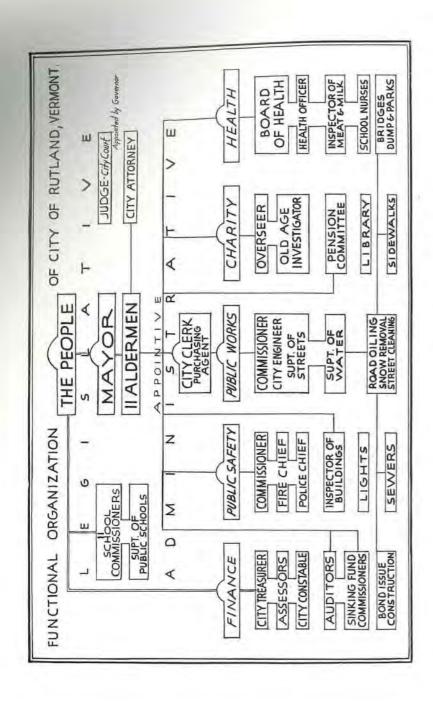

Constructive criticism is always welcome and we again urge all citizens to attend the bi-monthly Council meetings.

Mayor's Message

To the Citizens of Rutland:

In accordance with the usual custom, I take pleasure in submitting herewith the Mayor's annual message to be incorporated as a part of the forty-eighth annual report of the City of Rutland.

While individual departmental reports fully cover activities of the various City Departments, I want to take this opportunity to touch lightly on some of the major issues,

One thing that has impressed me more than anything else during my first full term as Mayor of the City of Rutland is the constantly growing expense of certain activities of City Government which apparently cannot be reduced. I refer to the things we are required to provide either by law or by public demand, and in order that we may approach this subject from a proper perspective, let us for the moment, indulge in a little retrospection.

The first annual report for the City of Rutland was issued for the fiscal year ending March 15th, 1894. The population of the City at that time was about 14,000. The present population is 17,217. The total expenses for that year were \$133,734.14. Of that amount \$24,402.35 represented the cost of education.

During the fiscal year 1893-1894, the comparative costs of some of the other departments, were as follows:

Fiscal Year Ending Mar. 15, 1894		Fiscal Year ending Dec. 31, 1940
\$25,285.76	Streets and Sewers	\$55,100.59
9,499.41	Fire	47,763.27
2,756.13	Police	30,524.97
10,371.02	Lights	16,879.28
3,863.15	Interest	36,016.91
7,676.13	Charities	55,551.24
_	Hospital	12,361.39
-	Bonds Paid	60,000.00

I am mentioning these items merely to point out some of the highlights that must arrest one's vision in glancing through this report. One thing that must puzzle the casual reader of the Mayor's message as published in each city report for the past forty-eight years, is that while nearly all of them emphasize the necessity of economy and retrenchment, in nearly every instance the expenditures of each succeeding year have exceeded those of the year before.

While in theory no appropriation can be made without the vote of the City Council, it would be idle to argue that the council is therefore entirely responsible for these rising costs of carrying on the City's business. It seems to have become a recognized fact that only a small part of the City's expenditures are within the control of the Mayor and the City Council. The rest is either required by law, by payment of obligations incurred by vote of the people, such as bonds, or due to the fact that the people have come to demand that certain activities be continued, and once these things are put into practice, it is difficult to abolish or even curtail them. To discontinue any of these services, or to cripple them, would injure the City and make it a less desirable place in which to live.

In the preparation of last year's budget a very determined effort was made by myself and your finance committee to reduce expenses wherever it seemed possible to do so, and while substantial reductions were made in many instances, conditions arising through the year over which we had little or no control, were such that a part of the proposed saving was off-set by these factors.

As was inevitable when the budget was adopted, another deficit was incurred which will have to be paid in 1941. However, despite the efforts of certain individuals, who stirred with prejudice and political ambitions, sought by their unworthy methods, to leave nothing undone to discredit my administration, both by circulation of a slander sheet and by verbal mistruths to the public, I am very glad to report that the deficit for the year 1940 was \$69,596.81, a reduction of \$19,315.73 from the 1939 deficit figure and \$28,457.27 from the 1938 deficit. It should be understood, however, that a deficit in any particular year is paid by a deficit tax, which, according to law, must be assessed in the ensuing year. Therefore, our bonded indebtedness is not being increased by these yearly deficits. The reduction in the deficit for 1940 will make a reduction of fifteen cents in the deficit tax for 1941.

Based on our present income and expenditures, deficits are bound to occur each year. The remedy of the situation is increased income, either by a general increase in the basic ratio used in assessing property or by an increase in the tax rate for general City purposes. The maximum amount that can be assessed at present for general city purposes is \$2.10, this figure

having been set in 1933. This year's budget calls for payment of \$75,000 in bonds from current funds. In the past few years pensions and workmen's compensation have been voted, but no provision made for an increase in the tax rate to meet such obligations. These two items increase our annual expense by about \$25,000.

A brief report on the various city activities follows:

FINANCIAL

Bonded Debt

The net Bonded Debt, as of December 31, 1940 (less Sinking Fund Accumulation of \$88,907.53) was \$780,092.47, equal to six times the present Grand List. Under Section 3609 of the Public Laws, a City or Town can bond to the extent of ten times the Grand List, which in the City of Rutland would make the bonding limit \$1,334,198.90. In the year 1940, \$114,000.00 Armory Bonds were paid from the Sinking Fund and \$60,000.00 Serial Bonds from current receipts. During the year 1940 Bonds were sold and temporary loans secured at the lowest figure in the history of the City, which testifies as to the good financial standing of the City.

Interest Payments

Interest payments during the year 1940 amounted to \$36,016.91. The budget prepared for 1941 carried an item of \$30,000.00, which will meet all interest payments due. The reduction is accounted for by the payment of 5% Armory Bonds cited above.

Tax Collections

Taxes collected by the Tax Collector in 1940 totalled \$28,-931.75, an increase of \$1,978.99 over the previous year. Our Tax Collector is to be commended on the wonderful record made in collecting back taxes. As of December 31, 1940, including penalties, a total of \$96,843.96 is outstanding as uncollected taxes.

Department of Public Safety

Fire

The Fire Department has proved its efficiency by again being awarded the Record of Merit for 1940 for the State of Vermont by the National Fire Protection Association.

The number of alarms received each year is steadily increasing, but the average loss remains about the same. This is due largely to the system of inspections which tends to reduce fire hazards, and also to the schools on fire fighting which this department sponsors each year.

Police

The Police Department operated very efficiently during the year 1940. Due to the ever increasing traffic, the demands on this department are continually mounting. The Police Department has cooperated with and received cooperation from the Sheriff's Department and the Motor Vehicle Inspectors.

Charities and Corrections

This Department has been conducted upon the principle that it is the primary duty of the City to care for its needy, but the expense thereof is also a vital question. The Stamp Plan, which is being given a trial in many communities in the country in conjunction with the Federal Agency, is to be inaugurated as early in 1941 as possible. If it is found that this plan does not work out to the advantage of the City, it can be cancelled on thirty days' notice.

Hospital

The Rutland Hospital and various convalescent homes located in Rutland have become indispensable in caring for Charity cases. The expense, however, is continually on the increase, but through cooperation of the local doctors and the Overseer's Department, the expense is kept as low as is humanly possible.

Public Library

The amount appropriated by the City to the Rutland Free Library this past year was \$6,500.00. This is an institution that appeals to all and under the present efficient management, all patrons may feel assured that it will keep abreast of the times. The circulation for the year was increased 4,106 over last year's record. The expense of operating this institution is increasing, due particularly to the larger quarters it is necessary to heat and light. The appropriation is a most worthy one.

Lighting Account

In January 1940, a new contract was entered into with the Central Vermont Public Service Corporation covering Street and Public Building Lighting. Total cost of lighting for the year 1940 was \$16,879.28, as compared with \$18,382.04 in 1939—a reduction of \$1,502.76, despite the installation of seven additional lights. (Figures exclude cost of school lighting.)

Old Age Pension, City Pension Payments and Employees Compensation

The Old Age Pension tax is assessed by the State, the City Pension and Employees' Compensation authorized by vote of the people, all of which are very worthy.

Playgrounds, Swimming Pool and National Youth Administration

The City is sorely in need of additional playgrounds as the ever increasing traffic on the highways endangers the lives of the children who must play in the streets.

Possibly arrangement can be made during the coming summer to secure the services of National Youth Administration employees as instructors at the swimming pool, in which event, free admission will be allowed to all the children of Rutland under sixteen years of age.

Many benefits to the City have been derived from the National Youth Administration Carpenter Shop, not only as a means of giving employment to local youth, but for services rendered in making repairs to public buildings, swimming pool repairs, etc. In addition, many of our younger men are learning trades in this project, and we feel it is a most worthy one, and the expense to the City is trivial.

Department of Public Works

Many of the activities carried on in this City come under the Department of Public Works and the supervision of the Commissioner of Public Works, and I respectfully refer you to his report on various Public Works activities.

Your foresight in approving a Bond Issue of \$50,000.00 in March 1940 for the construction of paved roads, sidewalks and curbs made possible the building of the equivalent of 2.56 miles of 20-ft.paved road, and .44 of a mile of black-top bituminous road.

The approval of another Bond Issue of \$50,000.00 for the carrying on of the pavement road, sidewalk and curbing projects in 1941 is earnestly requested.

As soon as it became clearly evident, that, due to the Defense and Rearmament Program adopted by the Federal Government, we could expect no Federal aid in connection with East Creek Flood Control Project, work was started early in September. The cost of this work is being paid from a Bond Issue of \$25,000.00 authorized in the spring of 1939. At the close of 1940, about one-half of the fund was expended. The work will be completed this year, and in such a manner as to afford long needed protection from floods to citizens living in the East Creek area.

Work Projects Administration

The assistance rendered by the many Federal agencies is deeply appreciated. During the year 1940, the City of Rutland received through the various branches of the Work Projects Administration, wages and materials totalling \$271,260.16. (A detailed statement appears on page 92.) On behalf of the City of Rutland, and personally, I wish to express my sincere appreciation to Mr. Harold P. Radigan, State Administrator of the Work Projects Administration, and all Department Supervisors, for their cooperation and courtesy.

Education

The Public Schools of the City of Rutland are under the control of the Board of School Commissioners, and the management and supervision is under the Superintendent of Schools. The Department of Education report included herein, endeavors to bring more clearly and visibly to your minds, the functions and activities of our public schools in this work of improving the physical and mental conditions of our children.

Salaries

Much has been said about the "raising of salaries in City Hall by City Officials without proper authority." For a number of vears the Board of Finance—consisting of the Mayor, President of the Board of Aldermen and City Treasurer-have set the salaries of employees in City Hall. In 1939, the Board of Aldermen raised the salary of the Mayor from \$900.00 to \$1,500.00 per year. When Commissioner Tracy left the service of the City, his salary was \$3,800.00 per year. Commissioner Nichols was appointed for the balance of Mr. Tracy's term in August 1939, and his salary was reduced to \$3.150.00 with the understanding that he would receive \$3.500.00 commencing as of January 1, 1940. The salary of the Assistant City Treasurer at one time was \$2,600.00, but due to changes was greatly reduced. The Board of Finance considered it proper to set the salary of the inexperienced Assistant City Treasurer at \$1,500.00, with understanding that an increase of \$100.00 per year would be allowed until the maximum of \$2,000.00 was reached. The salaries now being paid in the Charity Department are lower than in 1938 and the position of Farm Superintendent has been abolished. A detailed list of all City Officials and employees receiving in excess of \$300.00 per year is shown on pages 116 and 117 of this report, and I respectfully ask that you review these and compare with past years. The fact is, that, despite statements made to the contrary, through the combining of certain duties such as Purchasing Agent and City Clerk, Superintendent of Water with that of Commissioner of Public Works, the salary expense in 1940 is lower than in 1938 and 1939.

CONCLUSION

During the year 1940, I have given my entire time to the duties of the office of Mayor. It has been my aim at all times to keep the taxpayers informed insofar as possible concerning their City's business.

I wish to thank all who have assisted in any way in the furnishing of photos or data in connection with this, your annual report. I also desire to express my appreciation to the Rutland Herald for their cooperation and assistance. Detailed accounts of the activities of the respective departments are included in this report, in the publication of which it has been our endeavor to submit the facts to you in a comprehensive manner. Financial statements are among the most important subjects of any municipal report and we trust the section of this report detailing City finances is clear and understandable.

I want to express my thanks to the Board of Aldermen for their assistance, and my sincere appreciation to all City Officials and Employees—irrespective of their capacity—who have been associated with me during the last year in the administration and carrying on of City affairs. If we have gained any measure of success during that period, credit therefor is due to the spirit of cooperation that has at all times existed.

Whatever others may judge the result of our efforts to be, we at least gather some personal satisfaction from the fact that each of us has performed his full task, as it was given him to see it, and thereby discharged a public duty.

In these trying times, when half of the world is at war and human life is cheap, when our own country is engaged in a vast program of industrial mobilization and rearmament, we must stand united.

Respectfully submitted,

 $\begin{array}{c} \text{HENRY B. CARPENTER,} \\ \text{Mayor.} \end{array}$

Scenes from Pico Peak Ski Development

On Route U. S. 4, Near Rutland

1940 at a Glance

GENERAL

- Sale of Bonds at the lowest interest rate in the history of the City.
- Borrowings on Temporary Loans averaged .00173%, also the lowest rate in our history.
- Reduced the deficit for year 1940 \$28,457.27 as compared with the year 1938 and \$19,315.73 compared with the year 1939.
- Tax rate in 1940 reduced 10c from 1939 tax rate. A further reduction of 15c can be made this year on deficit tax.
- Constructed the equivalent of 2.56 miles of permanently paved concrete highways.
- Increased real estate values—estimated \$294,650.00—with the erection of 27 new houses and general repairs to numerous other buildings. The net fire loss was \$46,453.89.
- 7. Extensive repairs made to City Hall building.
- Obtained Federal Funds totalling \$271,260.16.
- Adopted the Stamp Plan for distribution of surplus commodities to the needy.
- Approximately fifty percent of East Creek Flood control work completed.
- Constructed 5,913 lineal feet of walks and 6,959 lineal feet of curbings.
- 475 Births, 166 Marriages and 317 Deaths registered at the office of the City Clerk.

EDUCATION

- The total number of teachers employed in the school department has been reduced from 82 to 77. This adjustment was necessary in order to reduce expenditures below income.
- A course in distributive education has been started at Rutland High School to provide training for those who are going into various types of merchandising. This course is supported by State and Federal aid to the extent of 70 percent of the teacher's salary.
- A new course in natural science has been developed by a committee of teachers for use in the elementary schools. Children profit exceedingly by a more intimate knowledge of the universe and of the plants and animals which inhabit it.

Recommendations for the Juture

GENERAL

- Full cooperation both in industry and as individuals in assisting the Government in its National Defense and Rearmament program.
- 2. Continuation of present Financial Policy.
- Approval of a Bond Issue for the continuance of the Street Improvement Sidewalk and Curbing Programs.
- 4. Continued cooperation with Work Projects Administration that the City may receive maximum benefits from all Federal funds expended.
- 5. Greater effort to secure new industries for Rutland.
- Continued cooperation in effecting public safety.
- Completion of East Creek Flood Control project in a satisfactory manner as to afford protection to our citizens living in this area.
- 8. Developing and equipping additional Playgrounds and recreational facilities.
- Continuation of efforts and study to secure an Airport for Rutland.
- Continued cooperation with all local organizations in the furthering of civic improvements.
- Take steps to improve conditions in Moon Brook area between South Main St. and Strongs Ave.

EDUCATION

- Increased emphasis on training at Rutland High School which will help young people to fit into the community as producers. More specifically we advocate training in such fields as the machine shop and auto mechanics.
- 2. The employment of more teachers trained in pupil adjustment and guidance so that our young people may be aided in discovering the best way for them to live and to make a living.

A REPORT ON HEALTHard PHYSICAL EDUCATION RUTLAND DUBLIC

PHYSICAL FITNESS OF LAND'S GREATER ASSETS

Report of the BOARD OF SCHOOL COMMISSIONERS

To the Mayor, City Council and Citizens of the City of Rutland:

We Americans have always wished to be a strong and vigorous race. The menace of war provides a compelling reason for developing to the fullest our human resources. The schools of America are dedicated to the task of insuring our way of life for the future by promoting physical fitness and by analyzing ideas so that those which would destroy our system will be discarded. The schools of Rutland, in common with the forward looking systems of the Country, have had an effective health program in operation for more than twenty years.

The oldest and still one of the most important features of this program is the daily instruction in health, hygiene and safety by the classroom teacher. This involves, first of all, the matter of personal cleanliness and supports the home program in teaching the care of clothing, the use of the tooth brush, and the desirability of being as spic and span as a young child can be. A good deal of the time is given to a discussion of the way diseases are spread which leads naturally to a consideration of the advantages and necessity of quarantine.

The regular classroom teacher is a most potent influence in teaching children to guard their health by habitual observance of safety rules. This part of the program has been so well done that fatal accidents among school children of Rutland are rare. A summary of all accidents to school pupils shows that accidents increase gradually up to grade six, remain the same through grades six, seven and eight, and then decrease to the end of school life.

Kindergarten SUMMARY First OF ACCIDENTS Second TO SCHOOL PUPILS BY GRADE Third Fourth Fifth Sixth Seventh Eighth Ninth Tenth Eleventh Twelfth Unclassified Each symbol represents 2 percent of accidents by grade.

Source of data used in this chart, "Accident Facts 1939," National Safety Council.

The health of the school children of Rutland is further safe-guarded by the work of two nurses who devote about half time to this service in public and parochial schools. The work of the nurses covers a wide range and includes first aid, a periodic examination of school children, assistance at dental and other clinics, home visiting, daily visits to the various schools, pupil counseling, the follow-up to see that defects discovered are corrected, and assistance in the control of communicable diseases with the necessary quarantine control.

YEARLY EXAMINATION

It is quite generally admitted that the health service rendered in the school is justified for two important reasons. The attendance record by and large is so much improved that fewer children fail of promotion on account of absence thus reducing the cost incurred by having a child repeat a grade which costs on the average of \$98. per year for each repeater. Few will deny that one of the first obligations of society is to protect itself from disease and to promote physical well being. The school nurses perform a splendid service in this field because they deal with children when the health habits of a life time are being formulated.

The Zonta Club and the dentists of Rutland have cooperated for several years to provide a dental clinic for the children of Rutland.

WAITING FOR THE DENTIST

The work done at the clinic is of vital importance to our children, helps attendance, improves general school work, and is a great credit to the ZONTA CLUB and to our DENTISTS.

In The Dentist's Chair

Lack of proper food probably has as much to do with low vitality, indifferent school work, and lack of social adjustment as any other factor. Many children during the past ten years have been innocent sufferers because of our faulty economic system. At all times there are some children who suffer from a lack of sufficient and nourishing food. Two of our schools, Longfellow and Watkins, with the hearty cooperation of the Parent-Teacher

Associations and the W. P. A., serve a nourishing meal in the middle of the day to children who are able to pay but little for it.

Every effort must be made to correct the defects discovered in the periodic examination. In most cases the parents will consult the family physician and steps will be taken to correct the difficulty immediately. In some cases, however, the correction depends upon the ability of the nurse to convince the parent that medical, or even surgical, attention is needed and to find a way to provide this service as well as hospitalization. We strongly urge all parents to give the utmost cooperation in these cases because it is important that physical defects be remedied.

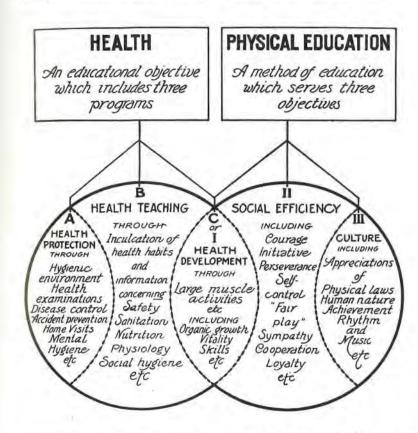

The health program is based on the interest of the children appealing to them in different ways as they advance in maturity. Other subjects make a decided contribution to health instruction. This is especially true of natural science where such things as the effect of the sun on the life of man is considered. Effort is made to stick to reality, to deal with the common everyday foods, to develop health habits, and to avoid the extravagant claims for this or against that.

We feel certain that the children eat better, sleep better, and live better because of the sane instruction received at school.

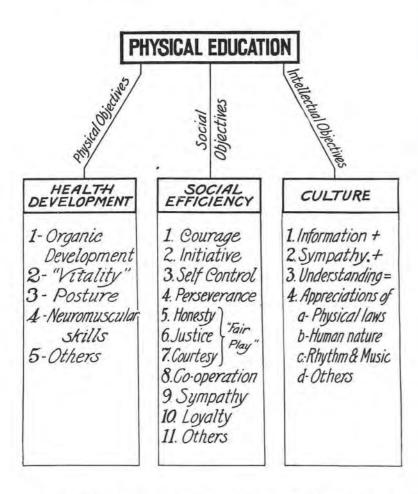

Respectfully submitted,

BOARD OF SCHOOL COMMISSIONERS, By F. E. Quigley, President.

Rutland, Vermont February 3, 1941 Health and Physical Education are closely linked and have many outcomes which are not apparent to the casual observer.

Source of this chart: New York State Physical Education Syllabus, Book IV, 1935. Physical Education touches life at many points and is much more than a scheme for gymnastic exercises and game playing.

Report of the SUPERINTENDENT OF SCHOOLS

To the Board of School Commissioners, the Mayor, the Board of Aldermen, and the Citizens of the City of Rutland:

Physical fitness has always been regarded as one of man's most valued assets. We admire those men who, like Theodore Roosevelt, have by determined effort made a rugged body in spite of a physical handicap. We cheer the winner of the race and pin medals on those who have the stamina to "take it" in sport or in war.

The school people of Rutland believe that physical fitness is of primary importance. During the past fifteen or twenty years, leadership has been furnished by the director of physical education. Our present program is regarded by state officials as one of the best in Vermont. It is reported from schools for advanced study that the students who come from Rutland are noticeably in better physical condition than the others and are more likely to become leaders in the activities of the school.

Numerous values are persistent, such as the joyousness of play and the freedom of choice, through all the grades of the school system. The emphasis, however, varies with the age of the children. In the early grades, the children delight in the singing games such as The Farmer in the Dell, The Mulberry Bush, Pop Goes the Weasel, and many others.

As the children grow older, they become more interested in "setting up" exercises which develop certain muscle areas. These exercises improve posture, grace of carriage and delight the children. Look at the faces of these boys and girls and you will see good Americans in the making.

Boys Playing Marbles

The freedom of the playground develops leadership, cements friendships, and gives everybody a good time. We believe that

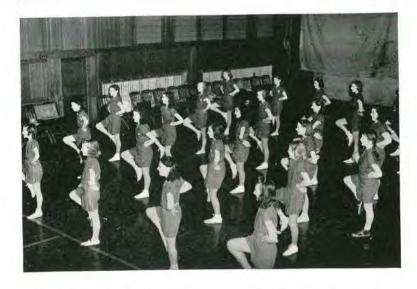

PLAYGROUND

one of the best things about our whole program is that more than 99 percent of the pupils take part in it.

Tug of War

At the Meldon School, the program includes two gymnasium or playground periods per week for all the children and organized play for a large percentage. The emphasis here is on cooperation with team mates, development of muscles, coordination of muscle and nerve, and the beginning of life interest in sports and hobbies.

The use of the gymnasium at Rutland High School for sixty hours a week is an indication of the interest in the physical education pro-

gram and shows that the taxpayer is getting a big return on his money.

A typical schedule of the use of the gymnasium at Rutland High School for one week:

Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
Scheduled	Physical 6 Boys 6 Girls	Education for week for week	Classes		Grade School Classes Boys—43 Girls—28
				-	1:15 P.M.
Scheduled	Physical 6 Boys 6 Girls	Education for week for week	Classes		Freshman Boys' Basketball

	Scheduled Varsity Basketball Practice Jayvees 10 Freshman 10	Scheduled Physical 6 Boys 6 Girls Scheduled Physical 6 Boys 6 Girls Varsity Basketball Practice Jayvees 10 Freshman 10 Meldon Boys Home Game otherwise would be	Scheduled Physical 6 Boys 6 Girls For week for week Scheduled Physical 6 Boys 6 Girls For week Varsity Basketball Practice Practice Jayvees 10 Freshman 10 Meldon Boys Home Game otherwise would be Compared to the process of the compared to the compare	Scheduled Physical 6 Boys 6 Girls Education for week for week Scheduled Physical 6 Boys 6 Girls Education for week for week Scheduled Physical 6 Boys 6 Girls Varsity Basketball Practice Practice Practice Varsity Basketball Practice Practice Practice Jayvees 10 Freshman 10 Meldon Boys Home Game otherwise would be Schedule Presentation of the state of	Scheduled Physical 6 Boys 6 Girls Education for week for week Scheduled Physical 6 Boys 6 Girls Classes Varsity Basketball Practice Practice Practice Varsity Basketball Practice Jayvees 10 Freshman 10 Meldon Boys Mond Boys Preshman So Boys Ucaders Corps 25 Boys Preshman 30 Boys Pasketball Game Warsity Basketball Practice Practice So Boys Preshman So Boys So Boys Basketball Game Varsity Basketball Practice So Boys Preshman So Boys Basketball Game

An outstanding feature of our program is that every boy and girl, able to do so, has several opportunities to take part. The gymnasium classes include nearly all the students of the high school, intramural activities provide a chance for a large number, and the variety of organized sports provides an avenue of expression for many.

Nine of the leading sports of Rutland High School are represented here.

While the girls of Rutland High School do not take part in interschool contests, a rich and varied program is provided for them. The physical stamina developed by the girls of this generation will result in stronger bodies in the next generation.

We are convinced that many and important values result from our program of physical education. The obvious result of better health and more rugged bodies is realized. The values of cooperation and human understanding, so valuable in a democratic society, are developed in the natural setting of the playground or gymnasium.

During the past ten years there has been a healthy growth in the type of sport which takes our young people out into the open. Great numbers of young people are skiing, skating and hiking. This is very encouraging to all of us who wish to see our boys and girls grow into rugged men and women. The school program has tended to bring out the various talents the young people possess and to encourage them to be participants rather than merely spectators.

The future of America is safe in the hands of these young people who have "increased in stature and in favor with God and man."

Respectfully submitted,

W. W. FAIRCHILD, Superintendent of Schools.

RUTLAND FREE LIBRARY

Rutland Free Library Report of the LIBRARIAN

City's appropriation-\$6,500.00

To the Honorable City Council:

The Rutland Free Library has just reached its 55th anniversary, and its 5th in this location. Not only is Library service given to the City of Rutland from this building, but also to the Southwestern District of Vermont through the Regional Library, and the Music Department sends its material throughout the State.

Reading follows the trends of time, and keeps pace with a changing world; so aside from new novels and popular non-fiction, we have made available books on democracy, and the background of the world crisis.

To aid the unskilled worker, books on machine shop practice, mechanical work, airplanes, blue print reading, etc., have been added to our collection. Aside from practical reading, the finer arts have been enjoyed as shown by the circulation of books on music, art, and flowers.

Our reading rooms and the Vermont room have been in constant use by townspeople and visitors, who enjoy the reading and reference facilities. The Auditorium is used for Library meetings, music appreciation classes, art exhibits, and other activities.

The opening of the Library on Sunday afternoons has proved a worthwhile venture. Many readers take advantage of this opportunity and it gives students access to supplementary material for school work.

The Outdoor Reading Room was patronized by many people. This library was adequately supplied with reading material for adults and juniors from the new weather-proof book stacks.

The circulation for the year was 111,967, which is an increase of 4,106 over last year's record.

In the Junior Department the circulation was 29,330, which is an increase of 438.

927 books have been added, and 217 were withdrawn, leaving a sum total of 33,834 volumes in the Library.

183 books were rebound and 97 replaced.

724 people registered at the Library for the privilege of borrowing books.

The largest daily circulation was 701, and the smallest 168. The average daily circulation was 355.

61 magazines were subscribed for, and 52 donated. Various fields are covered through these magazines, and many people read the current issue in the Reading Room, and later it is loaned through the circulating department.

We wish to express our appreciation to the Rutland Herald for printing lists of books and other Library items, to the Townspeople for their interest in the Library, and we are very grateful to the Regional Library for their assistance in transporting our books to schools and Stations.

Respectfully submitted,

CYNTHIA M. GORTON,

Librarian.

Report of COMMISSIONER OF PUBLIC WORKS

To the Honorable Council of the City of Rutland:

Gentlemen:

In compliance with the charter of the City of Rutland, a report of the activities of the Department of Public Works for the year ending December 31st, 1940 is herewith submitted.

All public works departments completed the year within their budget limitations and with a balance of \$1,299.53 of unexpended appropriations. The gross cost of operating the department was \$102,728.83 as compared with \$108,907.95 for the year of 1939.

The volume of work and the organization necessary to maintain the streets, sewers, sidewalks, bridges, parks, dumps, etc., can be better understood by a study of certain statistical information. The size, physical layout, topography, kind of city improvements, and services furnished the taxpayers vitally affects the operations of the Public Works Department.

Pertinent illustrative factors follow:

1.	Population of city	17,217
2.	Area in square miles	8 1/3
3.	Area of land in city—in acres	5,235
4.	Area of water in city—in acres	100
5.	Mileage of roads	59.55
6.	Miles of concrete paved streets	12.25
7.	Miles of other hard-surfaced streets	3.70
8.	Miles of sanitary sewers	71.52
9.	Miles of storm water sewers	3.47
10.	Miles of distribution water mains	57.35
11.	Miles of supply water mains	7.2
12.	Number of residence dwellings	3,283
13.	Number of retail gasoline distributors	84
14.	Number of water meters in use	491
15.	Commercial buildings metered	356
16.	Residence buildings metered	135
17.	Number of fire hydrants	327
18.	Average gallons of water used per day per capita	200

The Public Works Department is comprised of the Street, Sewer, General and Water departments. All departments, with the single exception of the Water Department, are supported by appropriations from general city tax funds. The Water Department is solely self-supporting from revenue received from the sale of water through meter and schedule rates.

The Commissioner of Public Works directs all public works activities sponsored by the city and serves as City Engineer, Superintendent of Streets, Superintendent of Water and Zoning Commissioner. The allied activities of the Work Projects Administration are estimated, planned and furnished with materials in advance of construction through the office of the Commissioner of Public Works, who also executes work on all public improvement projects, such as the restoration of '76 Bridge, and the East Creek flood control development.

The Street Department serves the public by the plowing and removal of snow; sanding icy streets and walks; graveling of secondary roads; patching of holes; cleaning gutters and sweeping of streets in the business section; applying asphalt and tar surfacing; maintaining the city garage, storage yard and black-smith shop; and maintaining all automotive equipment.

Braking Distances on Various Road Surfaces at 20 M. P. H. AVERAGE BRAKING DISTANCES BRY CONCRETE ON CONCRETE PAVEMENT NO CHAINS REAR WHEELS CHAINS REAR WHEELS AO FT. ON PACKED SNOW CHAINS OR BAND CHAINS REAR WHEELS SAND ON ICE SAND ON ICE DISTANCES IN FEET ON GLARE ICE DISTANCES IN FEET

The Sewer Department constructs and maintains new manholes, catch basins, mains and house connections. The General Department maintains the city dump; furnishes the caretaker and materials for the Main Street Park maintenance; repairs bridges, culverts and guardrails; cares for public trees; sets up and takes down election booths; provides for Clean-Up Week; trims grass and brush from roadsides on secondary streets; erects and maintains street directional markers; and sponsors public improvement safety projects.

The Water Department maintains the watershed area; plants trees on department-owned property; takes care of the reservoirs, mains, hydrants, valves and house connections; contributes the salary of the Assistant City Treasurer and a percentage of the salaries of the office staff of the Commissioner of Public Works; constructs new mains and lays new services, and re-lays old services where necessary.

The Department of Public Works, including the Water Department, has 39 full time and 2 part time employees. The Street, Sewer and General departments have 21 employees and a general foreman. The Water department has 11 full time and 2 part time employees and a general foreman. The East Creek project is currently employing a foreman and 8 full time employees and 2 full time employees are being paid from City funds on the '76 Bridge restoration.

The outstanding achievements of the Public Works Department for the year of 1940 are:

1. The purchase of 3 new trucks for the use of the Work Projects Administration which eliminated the hiring of privately-owned vehicles. These trucks operated a total of 4,024½ hours; the net saving to the city in cash was \$1,556.29 plus the present market value of the trucks.

- 2. The continuance of the Road Improvement Program. 30,097 square yards of concrete pavement and 5,177 square yards of mixed-in-place bituminous pavement was laid on the following streets or portions of streets: Baxter Street, Bellevue Avenue, Church Street, Crescent Street, East Street, Forest Street, Jackson Avenue, Kendall Avenue, Killington Avenue, Library Avenue, Lincoln Avenue, Pine Street, Terrill Street and West Street.
- 3. The acceptance of the recommendation of the Commissioner of Public Works for the consolidation of the office of Superintendent of Water with that of the other offices occupied by the Commissioner. This effects a saving of the entire \$2,400 annual salary formerly paid to the Superintendent of Water, since it was not necessary to hire any additional employees to carry on the work of the Water Department, as a foreman in this department was promoted to the rank of General Foreman at a modest increase in salary, and the duties of a truck driver for the Superintendent were discontinued.
- 4. Pedestrian walks were constructed on South Main Street over Moon and Mussey Brooks at a cost of \$299.42. These walks will protect the children attending the Park Street and Christ the King Schools from possible injury from the heavy auto traffic of Route 7.
- 5. The intake dam at the Water Works reservoir site was completed and the 6 new flood gates were installed. The cleaning of Mendon Brook, through the wooded section east of Mendon Village, was completed; the flood damage caused by the heavy spring rains was repaired; the reservoir was cleaned and the water shed signs were repaired and re-painted preparatory to their reinstallation during the year of 1941.
- 6. An investigation of the source of the city water supply was made in conjunction with the special aldermanic committee appointed for this purpose, and recommendations were submitted to the electorate for the construction of a new reservoir and connecting pipe line to be located above the present reservoir.

Number of cases of typhoid fever reported in the City of Rutland from 1926 to 1941:

1927	0	1934	1
1928	17	1935	2
1929	13	1936	2
1930	0	1937	1
1931	0	1938	3
1932	0	1939	0
1933		1940	4

CRESCENT STREET BRIDGE, SOUTH

The East Creek Improvement project was designed and work was started upon the same during the month of September.

The project is being completed in a satisfactory manner and within the estimate as prepared. To January 1, 1941 \$11,050.43 had been spent upon construction and \$1,000 had been paid to Mr. Henry W. Taylor, consulting engineer, for the submission of a preliminary project report with sketches. Mr. Taylor's plan was discarded as being too expensive for the City of Rutland to undertake at this time.

- 8. Work was begun on the restoration of '76 Bridge. Plans for the installation of 4 new 11-ton steel girders, replacement of decayed truss pieces, and the construction of a new roof were submitted by the Highway Department of the State of Vermont and accepted by the City. A contract between the City and State was approved and the Department of Public Works started operation at the site on September 18, 1940. The sum of \$4,730.50 had been expended on this project to January 1, 1941. It is anticipated that work will be entirely completed by February 15, 1941, at which time 80 per cent of the total cost of construction will be refunded to the City by the State of Vermont.
- 9. Secondary roads in out-lying residential sections were given more preferential treatment during the year of 1940 than in former years. All excess excavation from streets being paved was hauled to the following streets or portions of streets: Adams

Street, Allen Street, Belmont Avenue, Campbell Road, Curtis Avenue, lower Forest Street, Gay Street, Gleason Road, Jackson Avenue, Mussey Street, Park Street, Plain Street and the Stratton Road. Many of these streets received road tar or asphalt application treatments for the first time since their acceptance by the City.

It is felt that this type of work should be continued as the residents of these outlying sections are heavy contributors to the support of our City government and should not be compelled to travel through axle-deep mud to reach the business section and their respective places of employment.

- 10. The concrete sidewalk and curbing projects were continued as in former years. 6,959 lineal feet of curbing and 5,913 lineal feet of sidewalk were constructed. During the six year period from 1935 through 1940 a total of 18.72 miles of five-foot concrete sidewalk and 11.62 miles of integral concrete curb and gutter have been constructed upon City streets.
- 11. The Department of Public Works cooperated with the Zoning Commissioners and began the preparation of a complete set of basic maps. The Board of Aldermen appropriated \$1,000 for the purchase of materials and expert engineering experience, and the W. P. A. furnished several experienced draftsmen. A complete land-use map has been completed and colored. This map shows the present use being made of the various lots within the city limits and will be used in an endeavor to zone the city in a manner which may preserve the present existing conditions. Sectional maps of the city are now in the process of preparation and every indication points to a favorable completion of the project within the budget limitations. Less than \$200.00 of City funds have been expended to January 1, 1941 upon this project. It is interesting to note that under the joint auspices of the W. P. A. and the Department of Public Works it will be possible to present a workable zoning ordinance to the electorate at a cost of \$1,000 whereas the City of Burlington invested over \$10,000 for the preparation of a similar plan.
- 12. The mechanical operation of the Swimming Pool was vested with the Water Department during 1940. The seriousness of preserving the health of patrons of the pool was realized by your Commissioner who recommended that a regular employee of the Water Department be trained in the operation of the filters and chlorinating apparatus. This same employee will be appointed to duties at the pool during the summer months and the manager of the pool will be free to promote recreational activities.

The sum of \$500.00 was appropriated and expended in restoring the pool to a usable condition prior to the 1940 opening.

Leaks were checked; locker rooms repaired; filtering and chlorinating apparatus put in order; wiring replaced and a small amount spent in landscaping the grounds.

- 13. The Water Department re-laid 115 water services with copper pipe on streets receiving new mixed-in-place or concrete pavement. Re-lays of this type are made in an attempt to minimize the necessity of having to disrupt the new roadway by frequent digging to repair the existing galvanized services which are subject to rupture from rusting. The cost of making these relays was \$1,529.24.
- 14. A mile of new roadway was added to our highway system by the acceptance of the following streets or portions of streets: Deer Street, Highland Avenue, Howard Avenue, Easterly Avenue, East Washington Street and Meadow Lane. New regulations pertaining to the acceptance of streets were adopted by the Board of Aldermen in an endeavor to be cooperative with property owners without placing a heavy burden upon the Street, Sewer and Water Departments.
- 15. A special Aldermanic Sewer Committee, working with the City Engineer, investigated a storm sewer relief plan for the merchants in the business section. This proposal failed of adoption by the electorate. The inadequacy of the present system should be borne in mind in all deliberations relative to future public improvements.
- 16. A sewer and water main construction program to furnish employment for employees of the Work Projects Administration during the winter months was planned, estimated and designed by the City Engineer. Emphasis was placed on the construction of storm water sewers in residential sections. Storm water is being taken from the highways and emptied into the available streams nearest the site of construction to eliminate congestion of the present sanitary system. The benefits to be derived from this procedure will be noticeable to residents of low-lying sections and will prove to be valuable in preventing sewer plugs in our sanitary sewers. The possible construction of a sewage disposal plant at some future date will also be effected by the construction of storm sewers at this time as they will eliminate the necessity for the construction of many filter beds.

Water mains are being constructed on streets recently accepted where dwellings have already been built.

17. The City dump road was repaired and given a tar treatment to make it more accessible during the spring and winter months. Excess dirt from the various sewer and water main projects was drawn to the dump for covering and fewer complaints were received from adjacent property owners relative to obnoxious odors than in previous years.

- 18. Under the auspices of the National Youth Administration the offices occupied by the Commissioner of Public Works and staff were renovated. A further increase in the duties of the Commissioner necessitated more privacy in the fulfillment of his position and the office formerly occupied by the staff of the Old Age Assistance Bureau was annexed to the existing quarters in the interest of expediency and efficiency.
- 19. The Street Department applied 44,656 gallons of tar and 45,205 gallons of asphalt to the streets at a cost of \$11,940.63 as compared with \$15,324.90 for the year 1939. The continuance of the Road Improvement Program by Bond Issue will enable the department to better maintain the outlying streets.
- 20. The highway shoulders on North Main Street were patched and treated with tar and crushed stone from City-line to City-line. The cost of this work was \$1,602.24.
- 21. The engineering department furnished line and grade to property owners when requested; prepared all plans necessary for construction purposes; staked the road, sewer and water projects; and prepared maps and notes covering the various projects constructed showing in detail all pertinent facts necessary for their proper maintenance.

I have endeavored to set forth in the briefest form an account of the work accomplished during the year of 1940.

I wish to thank all who have cooperated in assisting me in making the year one of outstanding achievement, and to express my appreciation to His Honor the Mayor and the Honorable Board of Aldermen for the confidence they have shown in me in the administration of my official program.

Respectfully submitted,

W. K. NICHOLS,

Commissioner of Public Works.

Report of the PENSION BOARD

Net Cost to City-\$18,986.82

To the Honorable City Council:

Gentlemen:

For the third year of its operation the City of Rutland Pension Plan which became effective January 1, 1938 has resulted in a net cost to the city of \$18,986.82. This figure is explained as follows:

Total Premiums paid to Insurance Company \$24,802.79 Total Benefits paid to Pensioners 2,142.86

\$26,945.65

Less total amount of employees' contributions 7,958.83

Net Cost \$18,986.82

Since the start of the Plan, eight employees have been retired on a minimum annual pension of \$400.00 each. During the past three years three of these, John Howard, Kate E. Lamb, and C. V. H. Coan, have died.

At the present time there are 171 contributing members, 88 from the school department and 83 from the other departments

of the city.

Three meetings of the Pension Board have been held for the granting of pensions, the issuance of permits to continue employment after the voluntary retirement age, and for the transaction of other business necessary to the successful operation of the Plan.

During the year the Board of Aldermen ordered a change in the Pension Ordinance whereby city employees called for military service will be exempted from making contributions under the Plan while in service; the city to assume same with the understanding that such employees retain all their privileges, and the length of service the same as if their employment had not been interrupted. The committee heartily endorsed this change.

The budget requirements for 1941 will be \$250.00 less than the

appropriation for 1940; that is \$20,000.00.

Our thanks is due to the various City Officials and the City Council for their cooperation and assistance during the past year, as well as to Mr. T. P. Roberts, our City Treasurer, for his assistance with the insurance details.

Respectfully submitted,
For the Committee,
ESME A. C. SMITH,
Chairman.

Report of the COMMISSIONER OF PUBLIC SAFETY

Salary of Commissioner-\$300.00 per year

To the Honorable City Council:

Gentlemen:

I hereby submit to you my report as Commissioner of Public Safety for the year 1940.

FIRE PROTECTION

Employees—20 full time Call Firemen—12 Expenditures - \$47,763.27

The personnel of the Fire Department consists of one Chief Engineer, one Deputy Chief Engineer, two Captains, sixteen permanent men and twelve call men.

The apparatus consists of one American LaFrance 75 foot Aerial ladder truck, two 750 G. P. M. American LaFrance triple combination trucks, with 100 gallon booster tanks, one Buffalo quadruple truck with a 750 G. P. M. pump and 100 gallon booster tank and 215 feet of ladders. One International service truck, one-ton, and a Studebaker sedan.

The Department responded to 427 alarms during the year as follows: 361 telephone, 57 bell, 8 automatic thermostat and 1 verbal. This is an increase of 7 alarms over 1939 and the greatest number of alarms in any year. The Department also answered 26 special service calls of various nature.

The total value of property involved was \$2,077,069.00. The insurance carried was \$1,938,490.00. The loss was \$46,453.89 which includes \$1,995.22 paid on 52 claims to which the Fire Department was not called. There may be a slightly larger loss than the above figures for some other claims to which the Fire

Department was not called but we have been unable to obtain them.

This loss is \$6,355.90 less than 1939. The total loss on the Strand theater and buildings exposed, was \$34,813.98, leaving a loss of \$11,586.59 for the balance of alarms.

During the year members of the Fire Department made the usual number of inspections and resulted in having several potential fire hazards corrected. We believe that the small number of fires in our mercantile district is directly due to these inspections.

ALARMS BY DAYS OF WEEK

A training school for firemen was held in March with men from the Massachusetts Department of Education as instructors. Four men from this department passed teachers' examinations and are qualified to teach firemanship. Officers from every large department in the state attended this school. This school was held at no cost to the City.

Two fire alarm boxes were replaced and one new box added during the year. The fire alarm system is in very good condition and it should be extended to take in the newer sections of the City. New cable is needed on Merchants Row from Washington Street to Center Street. This will be replaced early in 1941. Several old boxes should be replaced each year and new ones added as the system is extended.

I would again recommend that a drill tower for the training of firemen be erected on the land owned by the City, at the corner of Deer Street and Woodstock Avenue.

Station 2 is badly in need of repairs which should be made at once. The roof leaks badly and the plaster is falling off the ceiling in the dormitory.

I so wish to again call to your attention that two of the trucks are getting old and will have to be replaced in the near future.

The cost of operating the Fire Department was \$47,763.27 as follows: Pay roll, \$41,429.08; Heating, \$823.82; Light and power, \$466.94; Telephone, \$407.80; Replacements, new equipment and new hose, \$1,262.12; Gasoline and oil, \$752.72; Laundry, \$139.71; Station repairs, \$216.11; Fire alarm, \$748.42; Truck operation, \$750.23; General supplies, \$766.32.

The appropriation was \$47,000.00 and receipts from outside sources were as follows: Wiring permits, \$101.00; Fires outside of City, \$150.00; Gasoline and oil to Charities Department, \$305.04; Gasoline and oil to Police Department, \$233.11; Miscellaneous, \$176.03; making a total of \$47,966.18 and leaving an unexpended balance of \$202.91.

The report as submitted to me by Chief Koltonski of the Fire Department is most commendable and great credit is to be given to him and the Officers and men under him for the way they perform their duties in this department and from my own observation in other departments of this kind, I feel proud of the way the apparatus and stations are taken care of.

On January 1st, this year, B. J. Morris was retired at the age of 70 years. Ben, as he was known, had been in the department 21 years and a faithful servant.

POLICE PROTECTION

14 Regular officers

2 Retired officers

85 Special officers

Expenditures—\$30,524.97

I wish to commend Chief Fox and men under him for the way in which they have performed the duties assigned to them, especially with the increased amount of work in this department. There was a greater amount of traffic the past year than in the previous year and it was well handled by the small force in this department.

We installed the past year several stop signs at the junction of some of the through highways, and I think it has been a help in avoiding accidents.

SCOUT CAR REPORT

The Oldsmobile Sedan used in this department the past year was exchanged for a G. M. C. Suburban Automobile with rear entrance doors. This type of car we feel will be more convenient for handling the different types of persons we have to deal with.

This car will perform the same duties as the prowl car in covering the territories outside of the business district at night.

	\$44,542.50	208*	\$956.00	9

*Average per month.

Grand total paid in Rutland City during the year-\$45,498.50.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds.

The administrative expenses of the department during the year was 4%.

The advice and council of local officials and interested people are gratefully acknowledged by this department and its field staff.

Very sincerely yours,

W. ARTHUR SIMPSON, Director.

Report of the WELFARE DEPARTMENT

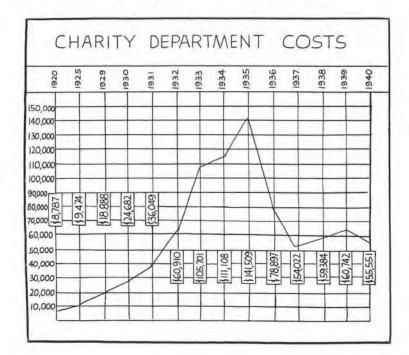

Net Expenses:

Charity, General \$51,999.48 Charity, Hospital 10,819.48

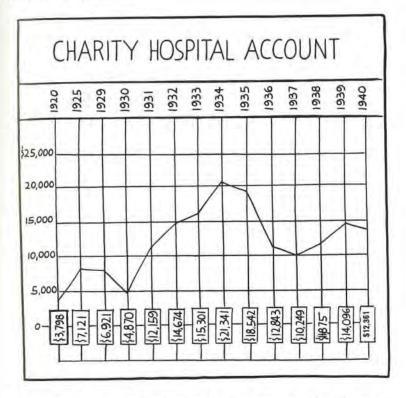

To the Honorable City Council:

I hereby submit the following report for the year 1940:

The appropriation to the Department of Charities and Corrections was \$52,000.00. The Department collected \$1,423.65 for support of families from other towns; \$1,153.88 from individuals, including Board paid at City Farm; \$974.23 from other sources, making a total of \$3,551.76 reimbursements. The gross expense amounted to \$55,551.24 including payments made for which refunds were obtained and the net expense was \$51,999.48; 52c remained in Charity Account at close of the year.

The appropriation for the Hospital account was \$10,000.00. An extra appropriation of \$1,000.00 was granted. The gross expense was \$12,361.39 with refunds of \$1,541.91, leaving net expense \$10,819.48. \$180.52 remained in Hospital Account at close of the year.

The W.P.A. Sewing Project employing persons under the supervision of Miss Julia Douglas, has made 12,140 garments. These are distributed through the Charity Department.

From the Mattress Project employing 24 persons, 100 mattresses have been given to needy families in the City. A recent addition to these W. P. A. Projects is one at Madison Street School where 14 persons are employed making comforters. From here, 86 comforters have been distributed.

Three W. P. A. Nursery Schools, averaging 25 children each, the year around, are partially sponsored by our Department. All of the above, with the distribution of Federal commodities have gone to make better-living for our less fortunate.

At the City Farm, 31 inmates have been cared for and during the year, 950 transients were accommodated. The gardens were very productive. Besides vegetables for daily use, 600 quarts were put up for winter use, also 25 gallons of pickles.

A barn, burned in February, was replaced at the expense of material only, the labor being done by men on N. Y. A. Carpenter Project.

Those applying for aid are required to work out amount given, at the Farm on their days off.

In closing, I want to thank Mayor H. B. Carpenter for his assistance, the City Officials for their generous aid at all times, also all those in the Charity Department for their efficient service.

Respectfully submitted,

OSCAR S. BERGSTROM, Overseer of Poor.

Report of the DISTRICT NURSE

City's appropriation-\$300.00

To the Honorable City Council:

Gentlemen:

The Rutland Missionary Society sponsors the district nursing service of this city.

Its purpose is manifold: namely, the care of the sick and infirm, the welfare of the aged, and the care of children in homes of the less fortunate.

Emergency cases, throughout the year, have been taken care of through the generosity and benevolence of interested individuals who have contributed clothing, furniture and money.

With funds thus received, medicine, milk, eggs, fruit, fruit juices, and food have been purchased. The Red Cross has furnished cod liver oil when needed.

At Christmas, gifts of money (\$89.15), clothing, and toys made it possible for me to remember 137 children with toys and candy; 58 of these children received:

9 pr. overshoes	30 union suits	2 sweaters
17 pr. shoes	29 under shirts	1 cap
13 pr. rubbers	8 panties and bloomers	1 snow suit pants
37 pr. mittens	4 night gowns	2 bath robes
78 pr. stockings	2 boy's suits	2 dresses

Christmas dinners were distributed to 155 families, through the generosity of interested individuals, clubs, fraternal orders of the city, churches, Mt. St. Joseph Convent, Red Cross, and the cooperation of Mrs. John Davies of the City Charities Department.

Layettes, clothing, mattresses, blankets, and comforters were made under the direction of the W. P. A. Sewing and Mattress Projects of this city and were placed at my disposal to be given as I found need.

Families visited	200
Calls made	
Welfare calls	
Prenatal calls	84
Maternity cases	37
Paid patients	
Layettes distributed	
The expense for the year has been as follows:	
Salaries for nurses \$1,2	40.00

This was met by City's appropriation of \$300.00, and money received from paid patients which was \$470.75; the balance, \$469.25 was paid by the Rutland Missionary Society.

In conclusion, I wish to express my appreciation to Mayor Carpenter and all in the Charities department, for their splendid cooperation at all times.

Respectfully submitted,

OLIVE H. WESTIN, District Nurse.

MUNICIPAL SWIMMING POOL

Report of the SWIMMING POOL MANAGER

Net Cost To City-\$816.36

To the Honorable City Council:

I hereby submit my report as manager of the Swimming Pool for the year ending December 31, 1940.

Despite weather conditions which prevailed throughout the summer, the attendance at the Municipal Pool held up well in comparison to previous seasons.

The policy of reduced prices for Adults and Family Season Tickets still in effect from the 1939 season, showed an increase in attendance in these tickets.

RECEIPTS

Appropriations		\$816.36

an extraction there and cold material a min this two col-		\$1,713.16

The interior of the Pool was completely renovated by employees of the National Youth Administration under the direction of Commissioner of Public Works, Kenneth Nichols.

During the season of 1940, swimming meets were held with teams representing the towns of Wallingford, Proctor and Middlebury. A team also represented Rutland in the State Championship Meet, held in Montpelier. This team finished second to Montpelier in the point standings, which was considered a fine showing for an inexperienced team.

I wish to thank His Honor the Mayor, the Board of Aldermen, for their cooperation and the City Engineer, the Chief of the Fire Department, the Chief of the Police Department, the Health Officers, the Superintendent of the Water Department and the men of those departments for their assistance during the season.

Respectfully submitted,

JOSEPH P. CANTY.

"WHILE BIG LEAGUE SCOUTS LOOKED ON"

Report of the SUPERVISOR OF RECREATION PROJECTS

Expense to the City in 1940-\$539.07

To the Honorable City Council:

Gentlemen:

I hereby submit a report covering recreation in the	City of
Rutland for the year ending December 31, 1940.	
Appropriation of City Council	\$700.00
EXPENDITURES	
Equipment (baseballs and bats, etc., volley balls; basketballs; soft balls and bats; nets; croquet games; ping-pong balls, paddles and nets; horseshoes etc	\$244.60
Craft tables; ping-pong tables and repairing old swings and sand boxes.	90.57
Crafts—leather, tools, paints, wood, cloth material, music, etc	164.60
Christmas Party (candy and candy boxes)	6.00
Halloween Party (cider and doughnuts and cups)	18.30
Transportation, one truck for annual picnic	15.00
Total Expenditures	\$539.07
Balance of appropriation - cancelled	\$160.93

This is the fifth year in which the City of Rutland and the Work Projects Administration have cooperated in a program of organized recreation. During the past year the Work Projects Administration has paid for the services of nine full time workers, \$5,309.50.

The Recreation Center which is housed in the Longfellow School during the fall and winter has served its purpose to a certain extent but larger and more suitable quarters should be provided for if possible.

Due to new and constant demand it is also recommended that play area be provided for the children residing in the vicinity of State and Pine Streets. Also that the City improve and enlarge playgrounds on city school property in order to keep the City of Rutland abreast with other wideawake Vermont communities.

The true success of this recreation project is seen and felt when 14,807 children attended the five different playgrounds for a total attendance under the supervision of paid instructors, and received the benefits of supervised play.

One of the many outstanding events sponsored by this project is the annual Halloween Party of which City Officials have recognized and realize the true value.

We wish to express our appreciation to the Local Lodge of Elks for their contribution of \$100.00 for the purchase of six new swings for playgrounds.

The Work Projects Administration and the Rutland Recreation Supervisors appreciate the full cooperation of His Honor, the Mayor, the Honorable Board of Aldermen and the other City Officials for their interest in this project.

Yours respectfully,

WILLIAM J. DALEY, Recreation Supervisor.

HALLOWEEN PARTY AT ROTARY FIELD (Note the Cider and Doughnuts)

Report of the N. Y. A. CARPENTRY AND WORK SHOP PROJECT

From January 1, 1940 to January 1, 1941

Expense to City in 1940-\$436.77

Project Sponsored by Henry B. Carpenter, Mayor, City of Rutland

Throughout the year 1940 there has been a total of 141 boys employed on the project. These boys are between the ages of 18 and 24.

Each boy receives from \$16.80 to \$17.36 per month and works a total of 48 hours per month, in addition he gives 18 hours of his time to Relative and General Training.

There are at the present time, 63 boys, one Supervisor and One Assistant Foreman employed on the project.

In addition to making many items, such as cabinets, for use of the Government, the boys have during the year ending December 31, 1940, performed work for the City which would have cost several hundred dollars.

Some of the work performed was a general over-hauling of the Swimming Pool, the construction of a barn at City Farm, to replace one destroyed by fire and recovering another barn and numerous other repairs on Farm buildings, both inside and outside; construction of a number of new election booths, considerable work for the School Department, and cleaning and redecorating all offices in City Hall Building, Council Chamber, etc.

Wages and material paid by the Federal Government in connection with this project during the year 1940 amounted to \$13,198.29.

CHAS. F. LORETTE, Project Supervisor.

Report of the CITY ATTORNEY

Salary \$1,800.00 per year

To the Honorable City Council:

Gentlemen:

I hereby submit my report as attorney for the City of Rutland for the year 1940.

While the City was not involved in any major suits, the usual amount of minor actions and proceedings in which the City was involved, were all disposed of without any expense on the part of the City.

A great many paupers, as usual, were removed to the State Hospital, in Waterbury, for treatment.

Considerable time was spent towards the revision of the Charter, and a few of the suggested changes were submitted to the voters in the Fall, and, as you know, were turned down.

The Charities Department had its usual number of cases of mental illness, and in each case adequate provision was made for their care and treatment.

A great number of contracts were drawn for the Charities Department, and several sums of money were recovered from the different towns.

The usual number of opinions on legal and municipal questions were requested by various city officials, boards and committees, and each request was attended to. Frequent consultations were held with the various officials and boards concerning municipal affairs. A great deal of work was spent by the City Attorney's office in conjunction with the East Creek Project, which necessitated the drawing of about one hundred easements, and which further necessitated a trip to Montpelier to see the Governor in order to obtain a lease of the State land situated on State Street.

Besides all this, numerous conferences were held with the City Engineer and the Consulting Engineer. Trips were made to Proctor to confer with the Vermont Marble Company officials regarding Ripley Dam. Easements were also drawn for work in conjunction with work done on Moon Brook and the W. P. A. Mendon Project.

A number of ordinances were submitted by me, including the bicycle ordinance, which was adopted; the peddlers ordinance, which was submitted but never adopted; the pension ordinance was amended to make provision for employees who were to be inducted into Federal Service. This year the ordinance relating to parking, particularly in the downtown area, was strictly enforced, and as a result of this, it was not necessary to bring any offenders into court.

Several resolutions were drawn, and the City Attorney's office is now preparing to submit some proposed changes in the ordinance, particularly Chapter XII, in regard to poles, wires and conduits, and Chapter XVII, dealing with the construction of buildings.

As in the past, the collection and settling of claims in favor of the City required a great deal of attention, particularly tax collections. Many minor actions were instituted and claims filed in the State, Probate and Bankruptcy Courts. Actions were brought against towns for pauper assistance and individuals for bills and other sums owed to the City.

Several hundred old bills that have been on the City books for years, relative to sprinkling assessments, were turned over to the City Attorney, and good results have been forthcoming so far in the collection of the same.

In the matter of the Colonial Marble Company, substantial progress has been made, and schedules are now being submitted to the court. After this has been done, motions will be filed to sell the property.

No salary or fees in this Department, in excess of the salary designated by the City Council, were incurred.

At this time I wish to acknowledge my sincere gratitude to the Mayor and the members of the Board of Aldermen for their constant cooperation and kind assistance.

Very truly yours,

PETER A. BOVE, City Attorney.

Report of the HEALTH OFFICER

Salary Health Officer \$1200. per year

To the Honorable City Council:

Gentlemen:

I herewith submit the following report for the year 1940.

The health department employs a health officer, who also acts as plumbing inspector, and a milk and meat inspector.

Through this department is maintained the control of communicable diseases, inspection services for the maintaining of sanitary plumbing facilities, municipal swimming pool, and other places of public assemblage.

Contagious diseases reported and quarantined in 1940 were as follows:

Whooping Cough	. 126
Chicken Pox	. 79
Scarlet Fever	. 17
German Measles	. 4
Typhoid Fever	
Mumps	. 2
Measles	. 1
Infantile Paralysis	
	42.7
	234

The 4 cases of typhoid were traced to one milk dealer who sold unpasteurized milk; however, a thorough check-up of his personnel did not reveal the source of the typhoid, so the Board of Health concluded that the contamination must have occurred on the route.

The City water was found to be contaminated 12 times, an increase of 4 over last year.

The water from the Municipal Swimming Pool was found to be contaminated 2 times.

HEALTH 71

Clinics for immunization and vaccination for diphtheria and small pox, respectively, were held in public and parochial schools and 310 children were immunized. This was done by Drs. Hodsdon, Reedy and Bellerose of the Board of Health.

The Health Officer made and approved of 24 plumbing inspections and investigated 10 sanitary complaints.

As is the case throughout the country heart disease, cerebral hemorrhage and cancer continue as the leading causes of death. Cancer reached the highest figure as yet recorded.

Respectfully submitted,

ALBERIC H. BELLEROSE, M.D., Health Officer.

VITAL STATISTICS

To the Mayor, City Council and Citizens of Rutland:

I hereby submit the following report on Vital Statistics as filed in the Clerk's Office:

GUY E. THAYER, Inspector of Buildings.

Report of CONSTABLE AND TAX COLLECTOR

To the Honorable City Council:

Gentlemen:

I respectfully submit the following report of my work as Constable and Tax Collector for year 1940:

The collection of delinquent taxes turned over to the City Treasurer amounted to \$28,931.75 from January 1st to December 31st, 1940.

This represents an increase of approximately 8% over the previous year, and my largest collection since taking office.

The attempted collection of the City's largest delinquent tax against the Colonial Marble Co., which now amounts to \$15,-287.57, has met many obstacles and delays in the courts. The City Attorney has filed all necessary schedules and papers, and there is now pending a motion to sell the property for taxes.

During the past year, 962 poll and old age assistance taxes were collected covering the years 1933 to 1940, inclusive, and a fair percentage of delinquent taxpayers are making weekly payments on their accounts.

After every effort was made at collection, tax sales on a number of lots were necessary. In many instances taxes were due and unpaid on the same from 5 to 15 years back, and owners or heirs could not be located or were not interested in the property.

I wish to express my thanks and appreciation to His Honor, the Mayor, the Honorable Board of Aldermen, the City Attorney, and all department heads and assistants for their aid and fine cooperation given to me at all times.

Respectfully submitted,

JOHN J. CARBINE, Constable and Tax Collector.

Report of the MEAT and MILK INSPECTOR

Salary-\$2000.00 per year.

To the Honorable City Council:

Gentlemen:

I respectfully submit the following report of my activities as Meat and Milk Inspector for the year ending December 31, 1940.

Milk licenses have been issued since January 1, 1940 amounting to \$472.00, as follows:

Stores. Restaurants. Fair Grounds. Producers. Dealers.	Stores	 -6			ž.	ġ.		è	ú		v.	340		į,			į,			
Fair Grounds	Restaurants		0			÷		0					6			à			i.	2
Producers	Fair Grounds.		š				_	ç		,	į.	,			Ĺ	*	į			
Dealers	Producers						6								è					
	Dealers						4					á		4	+			4		

Farms, dairies and creameries have been inspected periodically, and a report submitted to the Aldermen. Over 470 milk samples have been taken and tested by the Laboratory of Hygiene, Burlington, and a summary of the reports given to the Aldermen and printed in the Rutland Herald.

I have inspected meat markets, now numbering 41, monthly in accordance with the City Ordinance, and reported their condition to the Aldermen.

All animals killed in the City for human consumption have been inspected and doubtful carcasses rejected and destroyed. \$1,344.00 was received for inspection fees and turned over to the City Treasurer, as follows:

442 cattle	@ \$1.00	\$442.00
140 lambs	@ .25	35.00
355 swine	@ 1.00	355.00
1024 calves	@ .50	512.00
		\$1,344.00

Respectfully submitted,

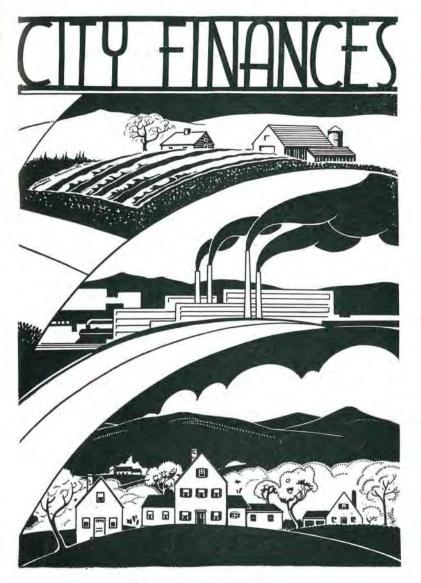

NORMAN H. COX, Meat and Milk Inspector.

FRED C. SPENCER, CHARLES H. LANDON, ROBERT D. SMITH, Sinking Fund Commissioners, City of Rutland, Vt.

Rutland, Vermont December 31, 1940

Report of Auditors

Springfield, Massachusetts February 10, 1941

To the Honorable City Council, City of Rulland, Vermont.

In accordance with your instructions, we have made an examination of the accounts and financial records of the Treasurer of the City of Rutland, Vermont and of the report of the Sinking Fund Commissioners for the year ended December 31, 1940.

We have examined the following financial statements as submitted by the City Treasurer and the Sinking Fund Commissioners:

Statement of Cash Receipts and Disbursements for the Year ended December 31, 1940

Statement of the Grand List and Tax Levy

Statement of Delinquent Taxes
Tax Comparison
Bonded Debt Comparison

Comparative Balance Sheet as at December 31, 1939 and 1940

Report of the Sinking Fund Commissioners for the Year ended December 31, 1940

In connection with our examination we have examined the records of the School Department, Department of Public Works, City Clerk, City Constable and Overseer of the Poor and traced all cash receipts as shown by the department records to the City Treasurer's cash book. We verified the receipts from the sale of water under scheduled and metered rates by examination of the records maintained in the Treasurer's office. All other cash receipts were verified by comparison of the duplicate receipts issued by the City Treasurer with the cash book entries.

Tax collections by the City Treasurer were verified by examination of the 1940 tax lists. All unpaid items were traced to the list of delinquent taxes which was turned over to the City Constable for collection.

The tax collections by the City Constable were verified by comparison of the duplicate receipts issued by him with the amounts received from him by the City Treasurer and by an analysis of the outstanding delinquent taxes as shown in the Treasurer's Report. All abatements shown on the delinquent tax schedule were properly authorized by the Board of Aldermen.

Cash disbursements and the distribution thereof were verified by a test check of the city warrants, and by comparison of the totals shown on the City Treasurer's cash book with the totals shown by various department records and on the Purchasing Agent's Warrant Book.

Payments of principal and interest on the bonded debt were verified by examination of canceled bonds and canceled interest coupons.

Cash balances at December 31, 1940 were verified by reconciliation of the balances shown in the report with those shown on certificates received by us direct from the several depositories.

AUDITORS 89

The accounts receivable, \$105,241.63, consist of the aggregate of open items in the delinquent tax books, record of uncollected scheduled and metered water charges, miscellaneous accounts receivable in the City Treasurer's office and amounts due to the School Department for tuition. In accordance with the terms of our engagement we did not communicate directly with the debtors except for a test check of the amounts due for delinquent taxes.

Form letters were mailed to approximately fifty taxpayers requesting confirmation of the amounts due as shown by the Constable's records. Replies received to date have disclosed no important differences in the accounts.

A reserve for doubtful taxes and accounts in the amount of \$40,000.00 has been provided as at December 31, 1940. In our opinion, this reserve is sufficient to cover the probable loss which may occur in the collection of these accounts. Similar adjustment was made in the December 31, 1939 balance.

The temporary loans, \$75,000.00, were verified by examination of temporary loan register and by correspondence with the various banks.

Accounts payable, \$320.75, is the total of unpaid bills in the City Treasurer's office at December 31, 1940.

The bonds outstanding, \$869,000.00, were verified by examination of the records maintained in the City Treasurer's office and from examination of the bond books which contain all canceled bonds and interest coupons.

The assets in the sinking fund were verified by examination of the savings bank books and securities held by the Sinking Fund Commissioners as detailed in their report.

The transactions in the sinking fund during the year were verified by examination of brokers' invoices covering sales of U.S. Bonds and by the examination of \$114,000.00 of canceled City of Rutland, 5% Armory bonds retired during the year.

Based on our examination and information furnished to us, in our opinion the statements enumerated in our report, subject to the comments thereon and on the basis of valuations indicated, correctly set forth the cash receipts and disbursements for the year ended December 31, 1940 and fairly present the financial position of the City of Rutland as at that date.

SCOVELL, WELLINGTON & COMPANY

Report of Auditors

February 12, 1940

To the Honorable City Council:

Your auditors have examined, in collaboration with the auditing firm of Scovell, Wellington and Company, the books and records of the City Treasurer, City Clerk, Overseer of the Poor, Superintendent of Schools, City Constable and Sinking Funds Commissioners from January 1, 1940, to December 31, 1940, inclusive, and we hereby state that in our opinion the books, records and reports thereof are, as furnished in the foregoing City Report, true and accurate.

Respectfully submitted,

FRANCIS CASAVAW,
WARREN G. GOODRICH,
A. TUTTLE PATTERSON,
Auditors.
